Profile

Junior software developer with experience in designing and building responsive, user-centered web applications using HTML, CSS, JavaScript and React. Comfortable working with APIs, version control and modern frontend workflows, as well as some backend. Strong desire to learn and improve my skills, ability to work independently and deliver clean, maintainable code. Strong communication skills with experience working in customer service.

Technical Skills

Frontend: HTML, CSS, JavaScript, React

Backend & Tools: Node.js, Express.js, Git, GitHub

Design: Figma, Adobe CS6

Other: Responsive design, accessibility, UX fundamentals, API integration, basic database use

Projects

TV Show Tracker [\[GitHub\]](#)

HTML, CSS, JavaScript

- Built a responsive app to track watched shows.
- Implemented local storage to persist user data.
- Designed a simple, clear interface focused on usability.

OSRS Bank Planner v1 [\[GitHub\]](#)

React, Node.js, Express.js, API integration

- Developed a bank-organising tool for Old School RuneScape players.
- Built a backend to fetch and cache OSRS Wiki API data, reducing unnecessary API calls and improving load consistency.
- Combined API and static data for offline reliability.

Portfolio Website [\[GitHub\]](#)

React / HTML / CSS

- Designed the layout in Figma and built a responsive portfolio showcasing core projects.
- Prioritised performance, consistency, and accessibility.

Experience

Customer Assistant

2024 - Present

- Delivered consistent service in a fast-paced, high-pressure environment.
- Coordinated with team members and supervisors to prioritise tasks effectively.
- Built strong communication and problem-solving skills in a customer-facing role.

Family Carer

2019 - 2024

- Managed appointments, medication schedules, and documentation accurately.
- Adapted quickly to changing circumstances and competing priorities.
- Developed strong organisational and self-management skills.

Freelance Graphic Designer

2016 - 2019

- Designed visual assets for client projects, maintaining brand consistency.
- Managed projects from requirements to delivery.
- Built an eye for layout, clarity, and user experience that directly supports frontend work.
